

## CAPABILITY STATEMENT

### Company Data

We use our niche specialties in A.I. and Custom Programming to create solutions.

We are a small business serving an international client base from our offices located in East Tennessee.

**CAGE Code: 9AUV2**

**UEI: XS7MFN5TXE98**

**DUNS: 003428280**

**NAICS Codes:**

**541715** - Artificial Intelligence

**541511** - Custom Computer Programming

Computer program, app, or software development

Software analysis and design

**541512** - Computer Software Consulting Services

**541513** - Computer Facilities Management

**541519** - Software Installation Services

### Contact Information

**Mark McKeever**

**mark@hammrtech.com**

**865-500-5510**

### Capabilities

- Custom Programming and Development
  - Custom Software Solutions - C#, React, JavaScript, .NET, Xamarin, and Python
  - Legacy Software Solutions - Update, Debug, and Replace
  - Mobile Device Management Solutions
  - Web and Mobile Apps
  - Software Integration
  - Website Creation
  - Workflow Automation Application Programming Interface (API) Connection
  - Records Management and Digitization with Artificial Intelligence

### Differentiators

- Collaborating with a major U.S. based international corporation to develop and implement state-of-the-art Artificial Intelligence tools for information systems research and for business.
- Cloud Computing Services - Ability to migrate and to optimize the cloud environment by balancing cost and performance, to reduce costs, and to convert CapX into OPEX.

### Past Performance

- Recognized for work in developing an AI tool that can efficiently search a specific set of text documents, generate a report in natural language, and provide citations with links to the source material.
- Created client-specialized mobile app to manage remote crews and job information.
- Over 12 years of experience building mission-specific software and secure IT infrastructure for clients in a variety of businesses around the world.
